

TAKE CONTROL OF YOUR HEALTH.

The physicians and providers at Endocrine Consultants Northwest understand that endocrine diseases can make you feel helpless. They also know that managing your health is essential to taking back control of your life.

If you're suffering from diabetes, osteoporosis, or cholesterol, thyroid or pituitary problems, come and talk to us. Whether you need guidance after an initial diagnosis or you're looking for the expertise necessary to design a comprehensive plan of care, you can trust the experts at Endocrine Consultants Northwest to deliver the finest in surgical and non-surgical options, patient education and ongoing treatment.

SERVICES WE OFFER

Endocrine Consultants Northwest offers comprehensive endocrinology care for adults and children. Some of the conditions we treat include the following:

- Diabetes
- Osteoporosis
- Thyroid and parathyroid gland disorders
- Hypoglycemia
- Pituitary tumors
- Hypogonadism
- Puberty disorders
- Adrenal insufficiency
- Goiter

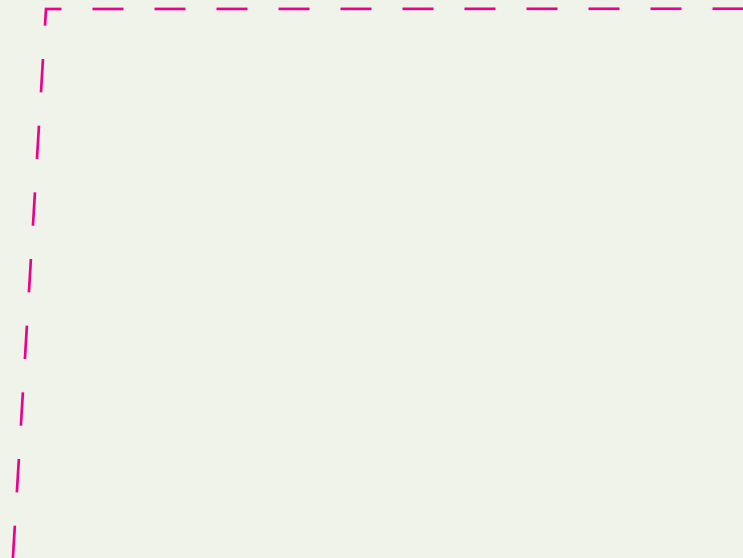

Our doctors and nurses will work with you to design a plan of treatment that works for you and has the best chance of success. And once a plan of action is decided upon, we will provide you with the education and support to understand the next steps in the healing process. Whatever you and your physician decide, we've got years of experience helping everyone from children to adults manage their health and live happy, fulfilling lives.

Contact Endocrine Consultants Northwest today at 253-565-6777 to learn more or to make an appointment.

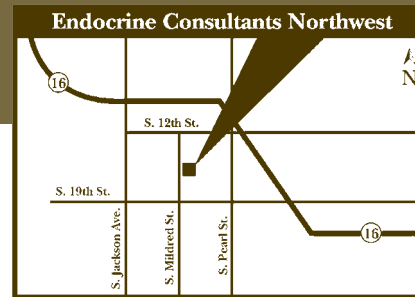

Part of Franciscan Health System

As a part of the family of Franciscan services, we work closely with other Franciscan professionals and the region's most extensive array of specialty care providers. So if you need emergency care, hospitalization or other medical services, we can make sure you get to the right place quickly.
